Elizabeth,

I started but didn't finish today. See the last page of the attached. Is this helpful? Level of detail you are hoping for? If yes, I'll pick up where I left off and type up what I've been able to glean from the site file and/or G: drive files. There's a lot and I'm just pawing through documents, which means I'll probably miss some things. Does this need to be comprehensive? If yes, we should probably ask USFS and Idaho DEQ to add to our draft.
